

PUBLIC EDUCATION PROGRAMS

Building Bridges

Awareness. Inclusion. Transformation.

Diversity & Inclusion Training Opportunities for Businesses

The latest US Census estimates that nearly 1 in 5 Americans have some form of disability. Individuals with disabilities, their families, and their friends are more likely to shop at, dine at, or engage the services of businesses that are accessible and inclusive. In addition, businesses that are flexible and open to employing the talents of all individuals, including those with disabilities, promote a workplace culture of collaboration and success.

Staff at Starbridge are experts in understanding disabilities and in working with groups in a positive, engaging fashion. Employees and organizations that participate in our Building Bridges program:

- ◆ Develop an understanding of disabilities and how they affect everyday life
- ◆ Improve their comfort level and skills in working with or interacting with people with disabilities
- ◆ Understand the definitions of and ways to accomplish reasonable accommodations and accessibility
- ◆ Learn more about New York State's Employment First initiative and its potential benefits

Our programs are:

- ◆ Tailored to meet the needs of your organization
- ◆ Delivered by experienced presenters
- ◆ Designed to contribute to increased sensitivity and acceptance of diversity within our workplaces and communities

See page 2 for information on fees.

**"I now have more skills
to better support my
co-workers and customers
with disabilities."**
