

# ATTENDANCE MATTERS

## SCHOOL EVERY DAY

Did you know that only 17% of students who were chronically absent in Kindergarten and 1st grade are able to read on grade level after 3rd grade? There is a direct connection between chronic absence and students' academic achievement, especially for students who have disabilities. Every minute in school matters. Families, join us as we explore strategies to overcome barriers that may be getting in the way of getting your child to school.
